Defense In The Home

To win the war, we all must save, eliminate waste. Waste in the home, as elsewhere, is costly.

Do the hot water faucets leak? . . . You are wasting water. Does your refrigerator need defrosting? . . . You are unnecessarily wearing down the motor. Does the range oven bake improperly? . . . You are wasting food, electricity. Are the lamp bulbs and shades dusty? . . . You are losing light, wasting power.

Review again all the easy means you can employ to eliminate waste. Call our nearest office for the free services of our Home Economist, or consult your local dealer.

A Week of The War

Secretary of War Stimson told his press conference this nation is confronted "with a situation in which we cannot "buy our way out," and the only way left is to fight our way out by intelligent offensive action." Every effort is being made to build powerful armed forces, he said, and when conditions warrant, they will "seize every opportunity" to strike at the enemy. In the meantime, the U.S. must be prepared to take sporadic attacks along its coasts, Mr. Stimson said, because "if we scatter our forces for the defensive, it is the surest way to defeat."

President Roosevelt told his press conference that under certain conditions enemy planes could bomb cities as far inland as Detroit, or enemy ships could shell New York city.

President Roosevelt announced a new loan to Russia was planned because the original Lend-Lease authorization of a billion dollars has been obligated for future deliveries. Commitments for making American war materials available to Russia were maintained up to schedule until December 7. Delivery of supplies for the Soviet Union were slowed down in December and January, he said, but will be brought back up to schedule by March 1. Under Secretary of State Welles said answers from the Vichy Government to this country in regard to French aid to Axis forces in North Africa were considered unsatisfactory.

Production and Conversion

The War Production Board announced war production of the "big three" automobile companies — General Motors, Chrysler and Ford . . . will be running at a rate of almost $11 billion dollars a year at peak production on present orders. The companies will need 900,000 to 1,000,000 workers as compared with a peacetime peak of 550,000.

Army

The House passed and sent to the Senate the new $32 billion War Appropriation Bill which provides $22 billion for Lend-Lease. The Senate passed a bill to authorize payment of allotments for one year to dependents of military personnel captured or listed as missing. Voluntary enlistments in January totaled 90,000 . . . double the January, 1941 figures. The Army announced formation of the 1st Filipino Infantry Batallion at Camp San Luis Obispo, Calif., to provide loyal Filipinos a means of serving in the U. S. armed forces and the eventual opportunity of fighting for their homeland. The War Department reported American pilots in the Chinese Air Forces "are giving Japanese airmen their worst licking of the war . . . knocking down more than 10 Japanese planes for every loss" of their own.

Selective Service Headquarters announced new Army physical standards for inductees will repmit reclassification as Class 1-A of thousands of men now deferred due to teeth and eye defects. SS Director Hershey instructed local draft boards to defer labor leaders and Government labor liaison men to permit continuance of their work in aiding war production and to defer men engaged in maintenance of essential agricultural activities. Men registered February 16 will be called for induction only after local boards have exhausted their available lists, he said. A lottery March 17 will determine the order of classification and induction. Questionnaires for vocational experience will be sent to every registrant who has not yet been called for service.

THE WAR FRONT

General MacArthur reported continuous fighting on the Bataan Peninsula and battery attacks on the fortifications throughout the week.

The Navy announced the destroyer Shaw, previously reported lost at Pearl Harbor December 7, arrived at a U.S. West coast port, is being repaired and within a few weeks will be in service again on the high seas.

A U.S. tanker was torpedoed in the Atlantic area.

NAVY

Secretary Knox said the Navy, operating over three-fourths of the globe under the heaviest burden in its history, must now protect U.S. shores and coastal commerce, strategic areas vital to our defense, the American Republics, and the flow of supplies to Great Britain. It must check Japanese aggression until "we can muster our forces and send it hurtling back whence it came." The Navy announced launching of a battleship, four destroyers, and a submarine chaser. The Navy said 1,000 Naval and Marine Corps officers and enlisted men and 1,200 civilians in the Pacific war area presumably were taken prisoners of war by the Japanese after December 7. The Portland, Oreg., recruiting office topped all others in January with 114 enlistments for each 100,000 persons in its area.

RATIONING

Price Administrator Henderson announced three consumer forms for gasoline rationing are expected to be printed and distributed by March 7. He said there will be two registrations for rationing cards, one for housewives and another for small business men. Petroleum Coordinator Ickes said nation-wide rationing of petroleum products may be necessary if other methods fail to prevent shortages on both coasts. He said gasoline regulations governing sales of fuel oil to all East coast consumers to keep stocks at a reasonable minimum and to prevent hoarding. The Justice Department said it is prepared to prosecute all violators of wartime industrial regulations including priorities, allocations, rationing and price control.

Protection From Sabotage

President Roosevelt authorized the Secretary of War to move out of vital defense areas any persons believed inimical to the U.S war effort . . citizens and aliens alike. Attorney General Biddle said the FBI has apprehended almost 4,000 alien enemies since the outbreak of the war. Approximately one-third of these are Japanese from California, Oregon and Washington.

SPECIAL PROGRAM AT LIBERTY CHURCH

The Womans Missionary Society of Liberty Baptist church will have an all-day prayer service at the church on March 4, beginning at 10:30 A.M. Mrs. A.R. Crabtree, missionary from Brazil, will conduct a home - mission class that day. A covered dish luncheon will be served.

Dr. A.R. Crabtree will speak at the church that evening, bringing a message of special interest to the young people.

Ladies of the Liberty Group of churches are cordially invited to attend this service.

BUTLER—THOMAS WEDDING

Mr. and Mrs. Sidney Tarry Thomas, of Gladstone, announce the marriage of their daughter, Susie Louise, to Robert Butler, of Newport News, Va., son of Mr. and Mrs. Frank Butler, of Bremo Bluff. The wedding took place Thursday afternoon, February 19th, at 4 o'clock at the home of the officiating minister, Rev. W. R. Reed, pastor of Memorial Methodist church, Appomattox, Va.

The couple will make their home in Newport News, where the groom is employed in the Newport News shipyard.

DEATH OF INFANT

Alice Fay Gobble, infant daughter, of Mr. and Mrs. Abraham Lincoln Gobble, died at the home of her parents near Vera, February 2.

Funeral services were held from the home Friday afternoon, with the Rev. L. R. Brown officiating.

Interment was in the New Hope church cemetery.

Seeking Rubber Sources

The Japanese thrust into Malaya and the Dutch East Indies may have cut off a great part of our rubber imports, but already we are preparing for the day when our present reserves are exhausted. Not only will a huge plant be established for the manufacture of synthetic rubber, but the United States is working with Brazil for the development of the Amazon Valley as a vast rubber producing area. It is estimated that from 60,000 to 70,000 tons a year can be secured from the wild forest regions, although President Roosevelt warned recently that there will be a real problem in getting crude rubber out of the hitherto virtually inaccessible areas.

Draft Lottery March 17th

DRAFT LOTTERY SET FOR MARCH 17

Men who registered February 16 under Selective Service will have their order numbers determined in a new draft lottery at Washington on March 17.

The lottery itself will follow the procedure of the two previous drawings. Capsules containing the numbers will be mixed up and then drawn by hand by hindfolded government officials. The goldfish bowl used first in 1917 World War I drawings will again be used.

Before the drawing is held local boards will shuffle the registration cards and number them T-1, T-2, T-3, etc. The "T" stands for Third registration. Similar sets of numbers will be in the capsules in the Washington bowl. Those holding the first number drawn will be the first in the new group of registrants to be considered for military service.

All the new registrants, however, will be placed behind those already registered on local board lists.

It is expected that it will take until May to have the new registrants answer questionnaires and to classify them.

Data on Suyar Rationing

Data, supplies and instructions on the forthcoming issuance of War Ration Books No. 1 (SUGAR) have been received, and are being readied for use next month.

It is understood that on the afternoons of March 9 and 10, retailers and commercial users of sugar will apply to school teachers at the three county high schools, after school hours, for necessary permits.

It is also understood that on March 17, 18, 19 and 20, after school hours, the general public will register for Ration Books with grade school teachers in their communities. Each person in the county is supposed to have his own Ration Book to be used for the purchase of sugar. At the time of registration for the books, which will contain 28 ration stamps, a statment must be made of the amount of sugar on hand, under severe penalty against false statement.

Complete information on the sugar rationing law will be published in this paper next week.

Would Add Cumberland

Under tentative plans now being considered in the General Assembly, Appomattox, Buckingham and Cumberland counties would be placed in a single legislative district to share a member of the House of Delegates. Appomattox and Buckingham are now in a legislative district together, and are represented by Delegate John B. Boatwright.

Cumberland county is at present in a legislative district with Prince Edward county, a district which was represented by the late E. W. Sanford, of Farmville. Under the proposed redistricting plan, Prince Edward county would be joined with Charlotte county in a district now represented by David K. E. Bruce.

No change in the Senatorial district of State Senator Chas. T. Moses is contemplated.

VIRGINIA LIVESTOCK

Virginia livestock and poultry was worth $94,761,000 as of January 1, 1942, according to the State Crop Reporting Service. This represents an estimated increase of 14 per cent within a year, according to officials, and was accomplished in spite of a drop in the value of horses and mules.

The largest increase in value was registered by hogs.

INTRODUCES SEED BILL

State Senator Chas. T. Moses has introduced a bill in the Senate to create a certified seed commission at Blacksburg to encourage the growth, distribution and use of certified seed.

A doctor at one of the Navy's recruiting stations reports that more blondes and red heads are color blind than are brunettes.

MARCH TIRE QUOTAS SLIGHTLY INCREASED

Virginia's allotment of new tires for March will be greater than that for February, State Rationing Administrator J. Fulmer Bright has announced. Furthermore, although no retreaded passenger car tires will be be available during the month, a quota of truck tires in this classification will be released.

The March rationing quotas for Appomattox county, received yesterday, are as follows:

Passenger cars, 6 tires and 5 tubes.

Trucks: 19 new tires, 8 retread tires, and 21 new tubes.

Cars: 8.

APPLICATIONS FOR MOTOR VEHICLE REGISTRATIONS

Applications for the renewal of motor vehicle registrations will be mailed March 11 to more than 500,000 motorists in the State, C. F. Joyner, Jr., assistant director of the Division of Motor Vehicles, said today.

Also to be mailed will be applications for the renewal of driving permits for more than 800,000 operators and chauffeurs in Virginia.

Motor vehicle license plates, the evidence of the renewal of the registration, must be purchased by April 15. They will go on sale March 16, at the Divisions' officers in Richmond and at 110 authorized agencies throughout the state.

"We must ask the motoring public to cooperate with us in the task at hand," Mr. Joyner said. "Please do not wait until the last minute to apply for your license tags."

Applications for the new driving permits should be filed with the Division or any of the license agencies early. All permits must be issued from the Richmond Office, the assistant director said.

Germany began its unrestricted submarine warfare in the last war on January 31, 1917.

Every day the Naval Observatory photographs the sun to find sun spots, which have a direct bearing on aviation.

Enlistments during the first month of war brought the Marine Corps to an all-time high of 84,591 officers and men.

Appomattox is a growing town.

Gangway, Mr. Hirohito

One side. Mr. Jap. The Marines are coming. In this case it's part of the 2nd Tank Battalion, Company B, of Camp Elliott, California. Trial runs like these accustom tough Marines to jars and spills and harden them for actual combat. Tank equipment in the Marine Corps is the most modern.

Registration of Volunteer Work To Be Held Soon

Appomattox County Defense Program Co-ordinator J. A. Burke announced today that plans were taking shape here for a Registration for Volunteer Civilian Emergency duties. Mr. Burke and Don Moses, Defense Program Director for the county, are working up a list of the civilian duties which it is desired to have patriotic citizens volunteer to do, and will shortly announce a day when civilians may register and indicate on a card just what emergency work they would be willing to do. Among the types of work to be performed in an emergency are: fire and police protection, aircraft spotters, air-raid wardens, first aid service, etc. It is estimated that up to 350 civilian volunteers may be needed in the county.

The civilian program is already activated in eastern Virginia, and Army officials recently visited Appomattox and indicated that the program may be put on an emergency footing in this area soon.
